RE: Northeast Gateway® Deepwater Port Incidental Take Statement and Incidental Harassment Authorization Monitoring Report – December 2014

Dear Mr. Guan,

On behalf of Northeast Gateway®, L.P. (Northeast Gateway®) and in accordance with Condition 12 of Annex A to the Maritime Administrator of the U.S. Maritime Administration (MARAD) License to Own, Construct, and Operate a Deepwater Port issued to Northeast Gateway® on May 14, 2007, and the National Oceanic and Atmospheric Administration (NOAA) Biological Opinion and Incidental Take Statement (ITS) issued on November 21, 2014, and Incidental Harassment Authorization (IHA) issued on December 22, 2014, Northeast Gateway® is providing for your record the Northeast Gateway® Deepwater Port (NEG Port or Port) ITS/IHA Monitoring Report for the month of December 2014.

During the December 2014 Reporting Period, the Energy Bridge™ Regasification Vessel (EBRV™) *Excelerate* (December 31, 2014), conducted operations at the Northeast Gateway® Deepwater Port (NEG Port or Port). The vessel called upon the NEG Port for the purpose of conducting commercial cargo delivery.

On December 31, 2014 at approximately 12:00 the EBRV™ *Excelerate* moored to NEG Port Buoy B. The *Excelerate's* call at the NEG Port for the purpose of commercial cargo delivery began on December 31, 2014. Additional data for the remainder of the visit will be provided in the ITS/IHA Report associated with the EBRV's departure from the Port.

During this time period, all actions required under the NOAA-approved Marine Mammal Detection, Monitoring, and Response Plan for Operations of the NEG Port and Pipeline Lateral were implemented on each EBRV™, as required. No marine mammal sightings were reported while the *Excelerate* was transiting within the designated Boston Traffic Separation Scheme (TSS), transiting to the Broad Sound Anchorage area, maneuvering within the Port's Area to be Avoided (ATBA), and/or while actively engaging in the use of thrusters. Attachment 1 contains copies of the signed Marine Mammal Sighting Logs completed by assigned EBRV™ look-outs during these operational events.

All EBRV™ personnel responsible for navigational duties or look-outs on all vessels received NOAA-approved training on marine mammal and sea turtle sighting/reporting and vessel strike avoidance measures. Records of those individuals who have completed the marine mammal and sea turtle training during the February Reporting Period have been included in Attachment 2.

Should you have any comments or concerns regarding the attached information please do not hesitate to contact me at 617-443-7521.

Sincerely,
