

**Table C. Summary of stock status for species not contained in federal fishery management plans.**

Stock (Species in Bold are Major Stocks)	Jurisdiction	Overfishing? (Is Fishing Mortality above Threshold?)	Overfished? (Is Biomass below Threshold?)	Approaching Overfished Condition?
AMERICAN EEL	ASMFC	Unknown <sup>1</sup>	Unknown <sup>1</sup>	Unknown
AMERICAN LOBSTER	ASMFC	Yes	Undefined <sup>2</sup>	Unknown
ATLANTIC CROAKER	ASMFC	Unknown	Unknown	Unknown
ATLANTIC MENHADEN	ASMFC	No	No	Unknown <sup>3</sup>
HORSESHOE CRAB	ASMFC	Unknown <sup>1</sup>	Unknown <sup>1</sup>	Unknown
NORTHERN SHRIMP	ASMFC	Yes	Undefined <sup>4</sup>	Unknown
SPOT	ASMFC	Unknown <sup>5</sup>	Unknown <sup>5</sup>	Unknown
SPOTTED SEATROUT	ASMFC	Unknown <sup>5</sup>	Unknown <sup>5</sup>	Unknown
STRIPED BASS	ASMFC	No	No	Unknown <sup>3</sup>
TAUTOG	ASMFC	Yes	Undefined	Unknown
WEAKFISH	ASMFC	No	No	No
AMERICAN SHAD	ASMFC	Yes <sup>6</sup>	Yes <sup>6</sup>	N/A
Hickory Shad	ASMFC	Unknown <sup>1</sup>	Unknown <sup>1</sup>	Unknown
RIVER HERRING	ASMFC	Yes <sup>6</sup>	Yes <sup>6</sup>	N/A
Atlantic Sturgeon	ASMFC	No <sup>7</sup>	Yes <sup>6</sup>	N/A

Stock (Species in Bold are Major Stocks)	Jurisdiction	Overfishing? (Is Fishing Mortality above Threshold?)	Overfished? (Is Biomass below Threshold?)	Approaching Overfished Condition?
<b>GULF MENHADEN</b>	GSMFC	No <sup>6</sup>	No <sup>6</sup>	Unknown <sup>3</sup>
<b>BLACK DRUM</b>	GSMFC	Unknown <sup>5</sup>	Unknown <sup>5</sup>	Unknown
Queen Triggerfish	GMFMC	Unknown <sup>1</sup>	Unknown <sup>1</sup>	Unknown
<b>YELLOWTAIL</b>	PFMC	Unknown <sup>1</sup>	Unknown <sup>1</sup>	Unknown
Pacific Bonito	PFMC	Unknown <sup>1</sup>	Unknown <sup>1</sup>	Unknown
Sockeye Salmon	PFMC	Undefined <sup>8</sup>	Undefined <sup>8</sup>	Unknown
Chum Salmon	PFMC	Undefined <sup>8</sup>	Undefined <sup>8</sup>	Unknown
Pink Salmon (even-numbered years)	PFMC	Undefined <sup>8</sup>	Undefined <sup>8</sup>	Unknown
Steelhead	PFMC	Undefined <sup>8</sup>	Undefined <sup>8</sup>	Unknown
Sea-run cutthroat	PFMC	Undefined <sup>8</sup>	Undefined <sup>8</sup>	Unknown
<b>PACIFIC HALIBUT</b>	PFMC and NPFMC <sup>9</sup>	No	Undefined	Unknown
Rattails	NPFMC	Unknown <sup>1</sup>	Unknown <sup>1</sup>	Unknown
Sea Snails	NPFMC	Unknown <sup>5</sup>	Unknown <sup>5</sup>	Unknown

1. There is no definition for determining the status in Our Living Oceans (1999).
2. While there is no clear biomass target in the ASMFC FMP, the 2000 ASMFC Assessment for American Lobster found that lobster stocks are growth overfished.
3. While the biomass level is known, determining whether the stock is approaching an overfished condition requires an additional level of analysis which has not been done.
4. Based on the ASMFC 2003 Northern Shrimp Technical Committee Report, the stock is in poor condition and no fishing on the stock was recommended. The report's results have not yet been incorporated into a peer reviewed assessment.
5. The definition for determining the status is based on the definition in Our Living Oceans (1999).
6. Used assessment from Our Living Oceans (1999).
7. Fishing for Atlantic Sturgeon is prohibited, therefore, there is no fishing mortality.
8. This salmon stock is not contained in the Salmon FMP because impacts within the Council jurisdiction are very limited and considered inconsequential. However, it is managed in State, Tribal, and/or international treaty forums. In addition, there are no criteria specified with which to make a determination of overfished or overfishing. Determinations of those salmon stocks listed in OLO do not account for all components of the stock, some of which are listed under ESA. Therefore, it would be inaccurate to list this stock according to those determinations. In the event that actions outside of the current management regime impact this species, management objectives could be developed and incorporated by plan amendment.
9. The resource is managed by treaty between the United States and Canada through recommendations of the International Pacific Halibut Commission. Pacific halibut is managed under the jurisdiction of the PFMFC for WA, OR, and CA and under the jurisdiction of the NPFMC for Alaska.

**Table D. Species contained in federal fishery management plans under development.**

Stock (Species in Bold are Major Stocks)	Jurisdiction	Overfishing? (Is Fishing Mortality above Threshold?)	Overfished? (Is Biomass below Threshold?)	Approaching Overfished Condition?
<b>HAGFISH</b>	NEFMC	Unknown <sup>1</sup>	Unknown <sup>1</sup>	Unknown
<b>CALICO SCALLOPS</b>	SAFMC	Unknown <sup>2</sup>	Unknown <sup>2</sup>	Unknown
<b>WAHOO</b>	NEFMC/MAFMC/SAFMC	Unknown <sup>1</sup>	Unknown <sup>1</sup>	Unknown
<b>BLUEFIN TUNA (NORTH PACIFIC)<sup>3</sup></b>	PFMC	Unknown <sup>1</sup>	Unknown <sup>1</sup>	Unknown
Western Pacific Currently & Potentially Harvested Coral Reef Taxa <sup>4</sup>	WPFMC	Unknown <sup>1</sup>	Unknown <sup>1</sup>	Unknown

1. There is no definition for determining the status in Our Living Oceans (1999).
2. The definition for determining the status is based on the definition in Our Living Oceans (1999).
3. In addition to Bluefin Tuna, this FMP under development will cover West Coast based fisheries for several tuna, billfish, shark species, and dorado (dolphinfish or mahimahi) already listed in the Western Pacific Pelagics FMP (Table A).
4. The FMP for Coral Reef Ecosystems of the Western Pacific Region, approved by the Secretary on June 14, 2002, includes federally-managed marine resources that are not listed in any of the other western Pacific fishery management plans (bottomfish/seamount groundfish, precious coral, crustacean, and pelagic fisheries). The final rule implementing the FMP was issued on February 24, 2004 (69 FR 8336), so as of the end of 2003, the stocks managed under the FMP had not yet been subject to a stock assessment. Western Pacific coral reef taxa are therefore identified only as a general category in this Table.
