

# 2024 Atlantic Shark Calendar

*Featuring artwork from the  
Atlantic Shark Art Contest  
winners*

**NOAA**  
**FISHERIES**

# About this Calendar

This calendar features winning artwork from the 2023 Atlantic Shark Art Contest. The Atlantic Shark Art Contest received over a hundred entries from kindergarten through 8th grade students across the United States to raise awareness about Atlantic sharks.

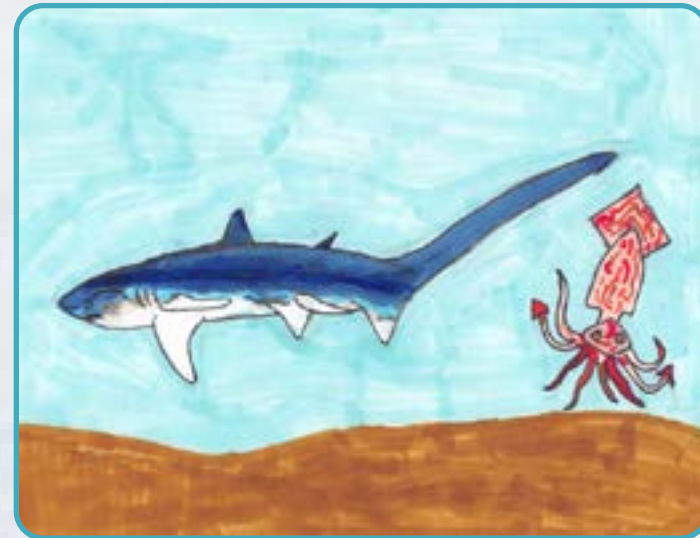

Entries were evaluated on the creativity, artistic presentation, and relevance to at least one of the three themes:

- The important role Atlantic sharks play in their ecosystem to support healthy oceans and fisheries.
- The diversity of Atlantic sharks and their habitats.
- Unique biological characteristics of Atlantic sharks.

Thank you to all the students (and teachers) for your participation in the 2023 Atlantic Shark Art Contest and helping us celebrate 30 years of successful U.S. Atlantic shark fisheries management.

Daniel C. (Grade 5, Washington)

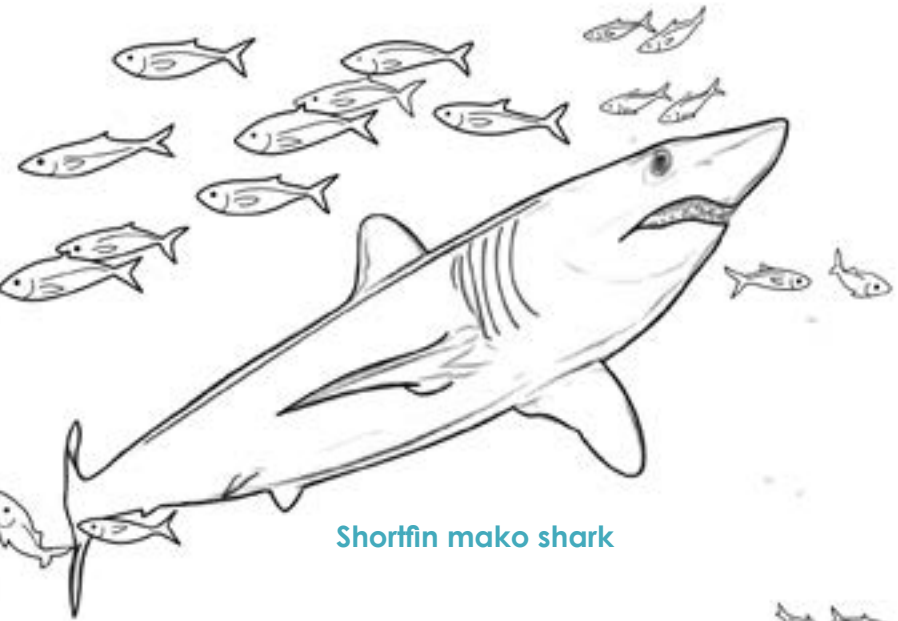

## NOAA Fisheries Atlantic Highly Migratory Species Management

### Celebrating 30 Years of Successful U.S. Atlantic Shark Fisheries Management

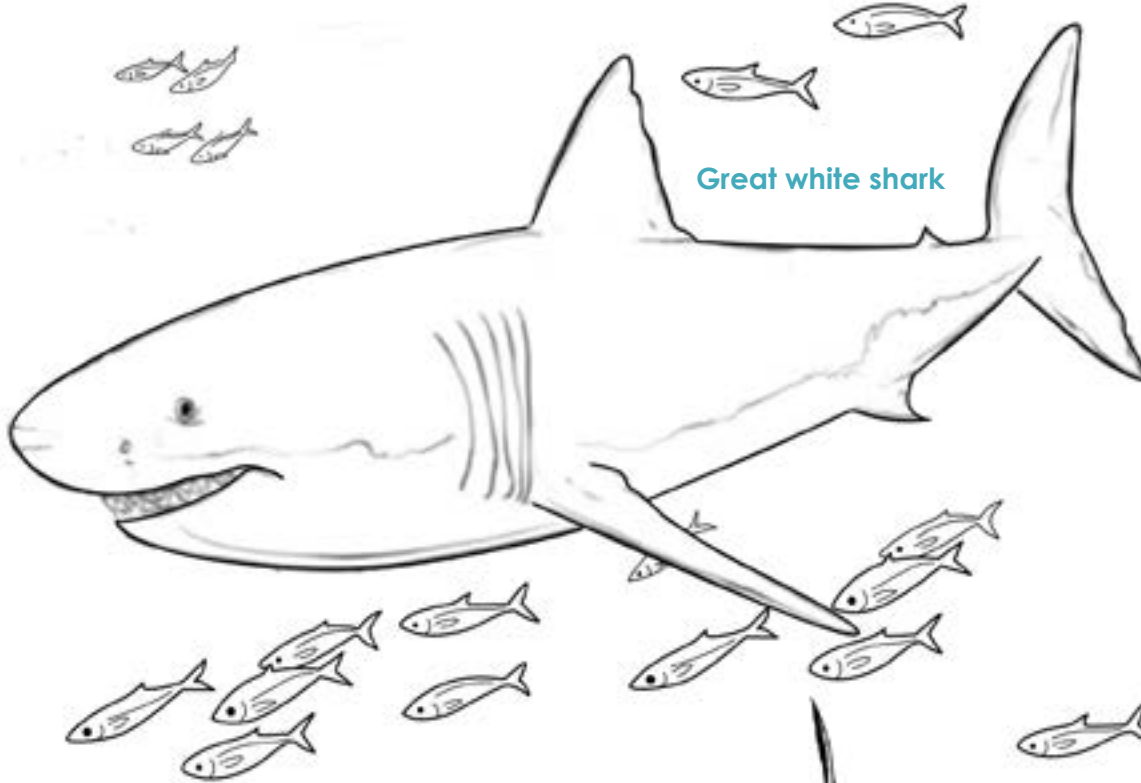

Since the first federal shark fishery management plan was established in 1993, NOAA Fisheries has been the leading U.S. authority on shark conservation. The U.S. Atlantic Ocean has some of the best-managed and sustainable shark fisheries in the world, with U.S. fishermen operating under some of the most transparent and robust environmental standards. NOAA Fisheries knows that successful shark conservation depends on the best scientific information available. That is why NOAA Fisheries uses a range of science-based tools to effectively manage our shark fisheries to end overfishing and rebuild populations. By working alongside the fishing industry, fishermen, and other stakeholders, we can adapt to the dynamic shifts and challenges faced by Atlantic shark fisheries today and in the future.
