

Please provide the following information, and submit to the NOAA DM Plan Repository.

Reference to Master DM Plan (if applicable)

As stated in Section IV, Requirement 1.3, DM Plans may be hierarchical. If this DM Plan inherits provisions from a higher-level DM Plan already submitted to the Repository, then this more-specific Plan only needs to provide information that differs from what was provided in the Master DM Plan.

URL of higher-level DM Plan (if any) as submitted to DM Plan Repository:

1. General Description of Data to be Managed**1.1. Name of the Data, data collection Project, or data-producing Program:**

Marianas Trench Marine National Monument: Knowledge, Attitudes, Perceptions Survey (2012)

1.2. Summary description of the data:

This data set is the result of a survey of residents on Guam and the Commonwealth of the Northern Mariana Islands implemented to collect data about knowledge, attitudes, and perceptions towards the Marianas Trench Marine National Monument. A telephone survey was administered in January and February 2012 using random digit dialing to phone numbers. Questions were designed to assess public knowledge, perceptions and preferences about specific management actions and goals that were being considered for inclusion in the Monument management plan. There is additional information about the demographics of survey participants.

1.3. Is this a one-time data collection, or an ongoing series of measurements?

One-time data collection

1.4. Actual or planned temporal coverage of the data:

2012

1.5. Actual or planned geographic coverage of the data:

Guam

CNMI

Marianas Trench Marine National Monument

1.6. Type(s) of data:

(e.g., digital numeric data, imagery, photographs, video, audio, database, tabular data, etc.)
Table (digital)

1.7. Data collection method(s):

(e.g., satellite, airplane, unmanned aerial system, radar, weather station, moored buoy, research vessel, autonomous underwater vehicle, animal tagging, manual surveys, enforcement activities, numerical model, etc.)

1.8. If data are from a NOAA Observing System of Record, indicate name of system:**1.8.1. If data are from another observing system, please specify:****2. Point of Contact for this Data Management Plan (author or maintainer)****2.1. Name:**

Justin D Hospital

2.2. Title:

Metadata Contact

2.3. Affiliation or facility:**2.4. E-mail address:**

justin.hospital@noaa.gov

2.5. Phone number:

(808)725-5399

3. Responsible Party for Data Management

Program Managers, or their designee, shall be responsible for assuring the proper management of the data produced by their Program. Please indicate the responsible party below.

3.1. Name:

Justin D Hospital

3.2. Title:

Data Steward

4. Resources

Programs must identify resources within their own budget for managing the data they produce.

4.1. Have resources for management of these data been identified?

No

4.2. Approximate percentage of the budget for these data devoted to data management (specify percentage or "unknown"):

Unknown

5. Data Lineage and Quality

NOAA has issued Information Quality Guidelines for ensuring and maximizing the quality, objectivity, utility, and integrity of information which it disseminates.

5.1. Processing workflow of the data from collection or acquisition to making it publicly

accessible

(describe or provide URL of description):

Lineage Statement:

The data were collected through a phone survey by a survey firm. The data were entered into the data entry file (MS Excel). The entered data were subject to logic tests and appropriate skip patterns. The data were assessed for outliers and cleaned. Finally, the cleaned data were provided by the contractor and used to generate data reports and summaries.

Process Steps:

- The data were collected through a phone survey by a survey firm. The data were entered into the data entry file (MS Excel). The entered data were subject to logic tests and appropriate skip patterns. The data were assessed for outliers and cleaned. Finally, the cleaned data were provided by the contractor and used to generate data reports and summaries. (Citation: Kotowicz D, Richmond L, Hospital J. 2017. Exploring Public Knowledge, Attitudes, and Perceptions of the Marianas Trench Marine National Monument. Coastal Management 45(6) 452-469.)

5.1.1. If data at different stages of the workflow, or products derived from these data, are subject to a separate data management plan, provide reference to other plan:

5.2. Quality control procedures employed (describe or provide URL of description):

The data were collected through a phone survey by a survey firm. The data were entered into the data entry file (MS Excel). The entered data were subject to logic tests and appropriate skip patterns. The data were assessed for outliers and cleaned. Finally, the cleaned data were provided by the contractor and used to generate data reports and summaries.

6. Data Documentation

The EDMC Data Documentation Procedural Directive requires that NOAA data be well documented, specifies the use of ISO 19115 and related standards for documentation of new data, and provides links to resources and tools for metadata creation and validation.

6.1. Does metadata comply with EDMC Data Documentation directive?

No

6.1.1. If metadata are non-existent or non-compliant, please explain:

Missing/invalid information:

- 1.7. Data collection method(s)

6.2. Name of organization or facility providing metadata hosting:

NMFS Office of Science and Technology

6.2.1. If service is needed for metadata hosting, please indicate:

6.3. URL of metadata folder or data catalog, if known:

<https://www.fisheries.noaa.gov/inport/item/36861>

6.4. Process for producing and maintaining metadata

(describe or provide URL of description):

Metadata produced and maintained in accordance with the NOAA Data Documentation Procedural Directive: https://nosc.noaa.gov/EDMC/DAARWG/docs/EDMC_PD-Data_Documentation_v1.pdf

7. Data Access

NAO 212-15 states that access to environmental data may only be restricted when distribution is explicitly limited by law, regulation, policy (such as those applicable to personally identifiable information or protected critical infrastructure information or proprietary trade information) or by security requirements. The EDMC Data Access Procedural Directive contains specific guidance, recommends the use of open-standard, interoperable, non-proprietary web services, provides information about resources and tools to enable data access, and includes a Waiver to be submitted to justify any approach other than full, unrestricted public access.

7.1. Do these data comply with the Data Access directive?

No

7.1.1. If the data are not to be made available to the public at all, or with limitations, has a Waiver (Appendix A of Data Access directive) been filed?

No

7.1.2. If there are limitations to public data access, describe how data are protected from unauthorized access or disclosure:

Non-confidential summaries for public access/display

7.2. Name of organization of facility providing data access:

Pacific Islands Fisheries Science Center (PIFSC)

7.2.1. If data hosting service is needed, please indicate:**7.2.2. URL of data access service, if known:**

https://oceanwatch.pifsc.noaa.gov/xfer/PIFSC_PIRO_bulk_data_download_InPort_36861.tgz

7.3. Data access methods or services offered:

Email Data Steward

Justin.Hospital@noaa.gov

7.4. Approximate delay between data collection and dissemination:

5 years

7.4.1. If delay is longer than latency of automated processing, indicate under what authority data access is delayed:

data were collected prior to PARR requirements

8. Data Preservation and Protection

The NOAA Procedure for Scientific Records Appraisal and Archive Approval describes how to identify, appraise and decide what scientific records are to be preserved in a NOAA archive.

8.1. Actual or planned long-term data archive location:

(Specify NCEI-MD, NCEI-CO, NCEI-NC, NCEI-MS, World Data Center (WDC) facility, Other, To Be Determined, Unable to Archive, or No Archiving Intended)

TO_BE_DETERMINED

8.1.1. If World Data Center or Other, specify:

8.1.2. If To Be Determined, Unable to Archive or No Archiving Intended, explain:

8.2. Data storage facility prior to being sent to an archive facility (if any):

Pacific Islands Fisheries Science Center - Honolulu, HI

NOAA Inouye Regional Center Ecosystem Sciences Division Socioeconomics Program

8.3. Approximate delay between data collection and submission to an archive facility:

5 years

8.4. How will the data be protected from accidental or malicious modification or deletion prior to receipt by the archive?

Discuss data back-up, disaster recovery/contingency planning, and off-site data storage relevant to the data collection

Data is securely stored in PIFSC's server with password protection.

9. Additional Line Office or Staff Office Questions

Line and Staff Offices may extend this template by inserting additional questions in this section.
