

Please provide the following information, and submit to the NOAA DM Plan Repository.

### Reference to Master DM Plan (if applicable)

As stated in Section IV, Requirement 1.3, DM Plans may be hierarchical. If this DM Plan inherits provisions from a higher-level DM Plan already submitted to the Repository, then this more-specific Plan only needs to provide information that differs from what was provided in the Master DM Plan.

URL of higher-level DM Plan (if any) as submitted to DM Plan Repository:

## 1. General Description of Data to be Managed

### 1.1. Name of the Data, data collection Project, or data-producing Program:

SHIMADA Deep-coral Cruise 2010 - Virtual Tours

### 1.2. Summary description of the data:

Scientists from NOAA Fisheries Service's Benthic Resources Group and NOAA Center for Coastal Environmental Health and Biomolecular Research participated in a six-day (November 1-6, 2010) research cruise aboard NOAA's newest Fisheries Survey Vessel (FSV), the Bell M. Shimada, to investigate deep-water sponges and corals between San Diego, CA and Seattle, WA. Remotely operated vehicle (ROV) surveys were conducted in Sur Canyon, south of Monterey Bay; on The Football, a bank north of San Francisco Bay; on Coquille Bank off the OR coast, and two sites within the Olympic Coast National Marine Sanctuary (OCNMS).

Underwater video and high-resolution still photographs were collected using the Southwest Fisheries Science Center's Phantom ROV. Many of these photos have been made available here, and a video of our encounter with several Humboldt squid (*Dosidicus gigas*) can be viewed here. 'Fly-along' with the researchers in your browser by clicking on one of the five virtual tours below (Google Earth browser plug-in required). Toggle the boxes above the map to turn on/off the various features. Zoom in on the map and click on individual photos to see larger images and additional information. Or, download the KMZ file to view the tours externally using Google Earth.

### 1.3. Is this a one-time data collection, or an ongoing series of measurements?

One-time data collection

### 1.4. Actual or planned temporal coverage of the data:

2010-11-03 to 2010-11-09

### 1.5. Actual or planned geographic coverage of the data:

W: -125.5, E: -121.5, N: 48.2, S: 36

US West Coast EEZ (<400m water depth) between Big Sur, CA and Cape Flattery, WA.

### 1.6. Type(s) of data:

(e.g., digital numeric data, imagery, photographs, video, audio, database, tabular data, etc.)

Map (digital)

**1.7. Data collection method(s):**

*(e.g., satellite, airplane, unmanned aerial system, radar, weather station, moored buoy, research vessel, autonomous underwater vehicle, animal tagging, manual surveys, enforcement activities, numerical model, etc.)*

Instrument: Still camera

Platform: Remotely Operated Vehicle (ROV)

Physical Collection / Fishing Gear: N/A

**1.8. If data are from a NOAA Observing System of Record, indicate name of system:**

**1.8.1. If data are from another observing system, please specify:**

**2. Point of Contact for this Data Management Plan (author or maintainer)**

**2.1. Name:**

Kevin L Stierhoff

**2.2. Title:**

Metadata Contact

**2.3. Affiliation or facility:**

**2.4. E-mail address:**

Kevin.Stierhoff@noaa.gov

**2.5. Phone number:**

858-546-7180

**3. Responsible Party for Data Management**

*Program Managers, or their designee, shall be responsible for assuring the proper management of the data produced by their Program. Please indicate the responsible party below.*

**3.1. Name:**

Kevin L Stierhoff

**3.2. Title:**

Data Steward

**4. Resources**

*Programs must identify resources within their own budget for managing the data they produce.*

**4.1. Have resources for management of these data been identified?**

Yes

**4.2. Approximate percentage of the budget for these data devoted to data management (**

specify percentage or "unknown"):

5

## 5. Data Lineage and Quality

*NOAA has issued Information Quality Guidelines for ensuring and maximizing the quality, objectivity, utility, and integrity of information which it disseminates.*

### 5.1. Processing workflow of the data from collection or acquisition to making it publicly accessible

*(describe or provide URL of description):*

Lineage Statement:

KML files generated from Access database.

**5.1.1. If data at different stages of the workflow, or products derived from these data, are subject to a separate data management plan, provide reference to other plan:**

### 5.2. Quality control procedures employed (describe or provide URL of description):

Reviewed prior to publishing.

## 6. Data Documentation

*The EDMC Data Documentation Procedural Directive requires that NOAA data be well documented, specifies the use of ISO 19115 and related standards for documentation of new data, and provides links to resources and tools for metadata creation and validation.*

### 6.1. Does metadata comply with EDMC Data Documentation directive?

Yes

**6.1.1. If metadata are non-existent or non-compliant, please explain:**

### 6.2. Name of organization or facility providing metadata hosting:

NMFS Office of Science and Technology

**6.2.1. If service is needed for metadata hosting, please indicate:**

### 6.3. URL of metadata folder or data catalog, if known:

<https://www.fisheries.noaa.gov/inport/item/11132>

### 6.4. Process for producing and maintaining metadata

*(describe or provide URL of description):*

Metadata produced and maintained in accordance with the NOAA Data Documentation Procedural Directive: [https://nosc.noaa.gov/EDMC/DAARWG/docs/EDMC\\_PD-Data\\_Documentation\\_v1.pdf](https://nosc.noaa.gov/EDMC/DAARWG/docs/EDMC_PD-Data_Documentation_v1.pdf)

## 7. Data Access

*NAO 212-15 states that access to environmental data may only be restricted when distribution is explicitly limited by law, regulation, policy (such as those applicable to personally identifiable information or protected critical infrastructure information or proprietary trade information) or by security requirements. The EDMC Data Access Procedural Directive contains specific guidance, recommends the use of open-standard, interoperable, non-proprietary web services, provides information about resources and tools to enable data access, and includes a Waiver to be submitted to justify any approach other than full, unrestricted public access.*

**7.1. Do these data comply with the Data Access directive?**

No

**7.1.1. If the data are not to be made available to the public at all, or with limitations, has a Waiver (Appendix A of Data Access directive) been filed?**

No

**7.1.2. If there are limitations to public data access, describe how data are protected from unauthorized access or disclosure:**

None.

**7.2. Name of organization of facility providing data access:**

Southwest Fisheries Science Center (SWFSC)

**7.2.1. If data hosting service is needed, please indicate:**

N/A

**7.2.2. URL of data access service, if known:**

<https://noaa-fisheries-swfsc.data.socrata.com/dataset/6985-xn79>

<https://swfsc.noaa.gov/ge.aspx?ParentMenuID=647&TopPG=16838&Project=DeepCoralWC2010>

**7.3. Data access methods or services offered:**

Via the WWW.

**7.4. Approximate delay between data collection and dissemination:**

None

**7.4.1. If delay is longer than latency of automated processing, indicate under what authority data access is delayed:**

**8. Data Preservation and Protection**

*The NOAA Procedure for Scientific Records Appraisal and Archive Approval describes how to identify, appraise and decide what scientific records are to be preserved in a NOAA archive.*

**8.1. Actual or planned long-term data archive location:**

*(Specify NCEI-MD, NCEI-CO, NCEI-NC, NCEI-MS, World Data Center (WDC) facility, Other, To Be Determined, Unable to Archive, or No Archiving Intended)*

NCEI-CO

**8.1.1. If World Data Center or Other, specify:**

**8.1.2. If To Be Determined, Unable to Archive or No Archiving Intended, explain:**

**8.2. Data storage facility prior to being sent to an archive facility (if any):**

Southwest Fisheries Science Center - La Jolla, CA

**8.3. Approximate delay between data collection and submission to an archive facility:**

None

**8.4. How will the data be protected from accidental or malicious modification or deletion prior to receipt by the archive?**

*Discuss data back-up, disaster recovery/contingency planning, and off-site data storage relevant to the data collection*

Accidental or malicious modification is not anticipated.

**9. Additional Line Office or Staff Office Questions**

*Line and Staff Offices may extend this template by inserting additional questions in this section.*
