Please provide the following information, and submit to the NOAA DM Plan Repository.

Reference to Master DM Plan (if applicable)

As stated in Section IV, Requirement 1.3, DM Plans may be hierarchical. If this DM Plan inherits provisions from a higher-level DM Plan already submitted to the Repository, then this more-specific Plan only needs to provide information that differs from what was provided in the Master DM Plan.

URL of higher-level DM Plan (if any) as submitted to DM Plan Repository:

1. General Description of Data to be Managed

1.1. Name of the Data, data collection Project, or data-producing Program:
   2007 Oregon Parks and Recreation Department Lidar: Rogue River

1.2. Summary description of the data:
   This lidar data set was collected along the Rogue River Greenway and Recreation Corridor, between TouVelle State Park and downtown Grants Pass in portions of Jackson and Josephine Counties, Oregon. This data set covers approximately 28,000 acres and was collected on May 30 and 31, 2007. The lidar data are multiple return and are classified as unclassified and bare earth.

   Sky Research, Inc. collected the LiDAR and created this data set for Oregon Parks and Recreation Department.

   Original contact information:
   
   Contact Name: Brady Callahan
   
   Contact Org: Oregon Parks and Recreation
   
   Phone: 503-986-0783
   
   Email: brady.callahan@state.or.us

1.3. Is this a one-time data collection, or an ongoing series of measurements?
   One-time data collection

1.4. Actual or planned temporal coverage of the data:
   2007-05-30 to 2007-05-31

1.5. Actual or planned geographic coverage of the data:
   W: -123.340515, E: -122.841675, N: 42.49292, S: 42.394287

1.6. Type(s) of data:
   (e.g., digital numeric data, imagery, photographs, video, audio, database, tabular data, etc.)
1.7. Data collection method(s):
  (e.g., satellite, airplane, unmanned aerial system, radar, weather station, moored buoy, research vessel, autonomous underwater vehicle, animal tagging, manual surveys, enforcement activities, numerical model, etc.)

1.8. If data are from a NOAA Observing System of Record, indicate name of system:

1.8.1. If data are from another observing system, please specify:

2. Point of Contact for this Data Management Plan (author or maintainer)

2.1. Name:
  NOAA Office for Coastal Management (NOAA/OCM)

2.2. Title:
  Metadata Contact

2.3. Affiliation or facility:
  NOAA Office for Coastal Management (NOAA/OCM)

2.4. E-mail address:
  coastal.info@noaa.gov

2.5. Phone number:
  (843) 740-1202

3. Responsible Party for Data Management
Program Managers, or their designee, shall be responsible for assuring the proper management of the data produced by their Program. Please indicate the responsible party below.

3.1. Name:

3.2. Title:
  Data Steward

4. Resources
Programs must identify resources within their own budget for managing the data they produce.

4.1. Have resources for management of these data been identified?

4.2. Approximate percentage of the budget for these data devoted to data management (specify percentage or "unknown"): 
5. Data Lineage and Quality

NOAA has issued Information Quality Guidelines for ensuring and maximizing the quality, objectivity, utility, and integrity of information which it disseminates.

5.1. Processing workflow of the data from collection or acquisition to making it publicly accessible

(describe or provide URL of description):

Process Steps:
- 2007-01-01 00:00:00 - Sky Research acquired elevation data using an ALTM 3100 airborne LiDAR system at an average altitude of 1000 meters and a laser repetition rate of 71 kHz (71,000 measurements per second). The following were the LiDAR Data Acquisition Parameters: Scan width: 317 m, Scan Overlap: 50 percent, Scan Frequency: 50 Hz, Scan Angle: plus or minus 13 degrees, Average spot spacing: 0.54 m, Vertical accuracy: 10 cm, Horizontal Accuracy: 33 cm. During the data acquisition, the sensor operator observed the real-time LiDAR swath coverage to assure full coverage for the survey area. The operator also monitored the in-flight Position Dilution of Precision (PDOP) and GPS satellite coverage. If tolerance thresholds of either were exceeded, data acquisition activities were put on hold until acceptable conditions resumed. After the data acquisition flight, data from GPS base stations were checked against in-flight GPS data for concurrence. Once data quality assessments were completed, all data (image and ancillary) were transferred to a centralized location for pre-processing and quality control analysis.
- 2007-01-01 00:00:00 - After acquisition, the data were processed and analyzed, and the draft data was uploaded to the RVCOG interactive mapping site (IMS). Final data delivery and reporting concluded in August 2007.
- 2011-12-01 00:00:00 - The NOAA Office for Coastal Management (OCM) received the files in las format. The files contained lidar elevation and intensity measurements. The data were in the Lambert Conformal Conic projection and NAVD88 Geoid 03 vertical datum. OCM performed the following processing for data storage and Digital Coast provisioning purposes: 1. The data were converted from Lambert Conformal Conic coordinates to geographic coordinates. 2. The data were converted from NAVD88 (orthometric) heights in feet to GRS80 (ellipsoid) heights in meters using Geoid 03. 3. The data were filtered to remove outliers. 4. The LAS data were sorted by latitude and the headers were updated.

5.1.1. If data at different stages of the workflow, or products derived from these data, are subject to a separate data management plan, provide reference to other plan:

5.2. Quality control procedures employed (describe or provide URL of description):

6. Data Documentation

The EDMC Data Documentation Procedural Directive requires that NOAA data be well documented,
specifies the use of ISO 19115 and related standards for documentation of new data, and provides links to resources and tools for metadata creation and validation.

6.1. Does metadata comply with EDMC Data Documentation directive?
   No

   6.1.1. If metadata are non-existent or non-compliant, please explain:
   Missing/invalid information:
   - 1.6. Type(s) of data
   - 1.7. Data collection method(s)
   - 3.1. Responsible Party for Data Management
   - 4.1. Have resources for management of these data been identified?
   - 4.2. Approximate percentage of the budget for these data devoted to data management
   - 5.2. Quality control procedures employed
   - 7.1. Do these data comply with the Data Access directive?
   - 7.1.1. If data are not available or has limitations, has a Waiver been filed?
   - 7.1.2. If there are limitations to data access, describe how data are protected
   - 7.4. Approximate delay between data collection and dissemination
   - 8.1. Actual or planned long-term data archive location
   - 8.3. Approximate delay between data collection and submission to an archive facility
   - 8.4. How will the data be protected from accidental or malicious modification or deletion prior to receipt by the archive?

6.2. Name of organization or facility providing metadata hosting:
   NMFS Office of Science and Technology

   6.2.1. If service is needed for metadata hosting, please indicate:

6.3. URL of metadata folder or data catalog, if known:
   https://www.fisheries.noaa.gov/inport/item/49896

6.4. Process for producing and maintaining metadata
   (describe or provide URL of description):

7. Data Access
   NAO 212-15 states that access to environmental data may only be restricted when distribution is explicitly limited by law, regulation, policy (such as those applicable to personally identifiable information or protected critical infrastructure information or proprietary trade information) or by security requirements. The EDMC Data Access Procedural Directive contains specific guidance, recommends the use of open-standard, interoperable, non-proprietary web services, provides information about resources and tools to enable data access, and includes a Waiver to be submitted.
to justify any approach other than full, unrestricted public access.

7.1. Do these data comply with the Data Access directive?

7.1.1. If the data are not to be made available to the public at all, or with limitations, has a Waiver (Appendix A of Data Access directive) been filed?

7.1.2. If there are limitations to public data access, describe how data are protected from unauthorized access or disclosure:

7.2. Name of organization of facility providing data access:
NOAA Office for Coastal Management (NOAA/OCM)

7.2.1. If data hosting service is needed, please indicate:

7.2.2. URL of data access service, if known:
https://coast.noaa.gov/dataviewer/#/lidar/search/where:ID=1120
https://coast.noaa.gov/htdata/lidar1_z/geoid12a/data/1120

7.3. Data access methods or services offered:
This data can be obtained on-line at the following URL: https://coast.noaa.gov/dataviewer

The data set is dynamically generated based on user-specified parameters.

7.4. Approximate delay between data collection and dissemination:

7.4.1. If delay is longer than latency of automated processing, indicate under what authority data access is delayed:

8. Data Preservation and Protection
The NOAA Procedure for Scientific Records Appraisal and Archive Approval describes how to identify, appraise and decide what scientific records are to be preserved in a NOAA archive.

8.1. Actual or planned long-term data archive location:
(Specify NCEI-MD, NCEI-CO, NCEI-NC, NCEI-MS, World Data Center (WDC) facility, Other, To Be Determined, Unable to Archive, or No Archiving Intended)

8.1.1. If World Data Center or Other, specify:

8.1.2. If To Be Determined, Unable to Archive or No Archiving Intended, explain:
8.2. Data storage facility prior to being sent to an archive facility (if any):
Office for Coastal Management - Charleston, SC

8.3. Approximate delay between data collection and submission to an archive facility:

8.4. How will the data be protected from accidental or malicious modification or deletion prior to receipt by the archive?
*Discuss data back-up, disaster recovery/contingency planning, and off-site data storage relevant to the data collection*

9. Additional Line Office or Staff Office Questions
*Line and Staff Offices may extend this template by inserting additional questions in this section.*
