

Activity

Use the 2015 Operational Guidelines to answer the following questions.

1. If you wanted to find out whether a recent action of a Take Reduction Team (established under the Marine Mammal Protection Act) may be relevant to an upcoming vote of your council, what pages in the OGs or Appendices would provide helpful information.
2. If you wanted to find out whether it would be beneficial to request use of MSA Emergency rulemaking authority rather than to utilize the regular rulemaking approach, where in the OGs of Appendices would you look?
3. If a constituent asked you for information about how to participate in another council's public process, how could the OGs and/or Appendices help you answer him?
