

Southern Resident Killer Whale Sightings 1990-2018

THE WHALE MUSEUM
EDUCATION • RESEARCH

The data source for this map is The Whale Museum's Orca Master Dataset. All reported sightings are assigned to 1 of 445 quadrants (~4.6km x 4.6km). Numbers indicate the total number of unique sighting days for Southern Resident Killer Whales in each quadrant. Known sightings of transients, offshore, or Northern Resident orcas are excluded from this dataset.
