Norton Sound red king crab <sup>c</sup> (NSR)	Norton Sound	310.0 <sup>d</sup>	220.0 <sup>d</sup>	178.0 <sup>d</sup>	164.7 <sup>c,d</sup>	13.4 <sup>c,d</sup>	193.4 <sup>d</sup>	300.0 <sup>d</sup>	180.0 <sup>d</sup>	154.9 <sup>d</sup>	143.3 <sup>c,d</sup>	11.6 <sup>c,d</sup>	147.4 <sup>d</sup>	290.0 <sup>d</sup>	170.0 <sup>d</sup>	142.6 <sup>d</sup>	131.9 <sup>c,d</sup>	10.7 <sup>c,d</sup>	0.4 <sup>d</sup>			

<sup>a</sup>The Western section does not have CDQ (Community Development Quota), but instead has an ACA (Adak Community Allocation).

<sup>b</sup>Prior to the 1980/81 season the GHL for the WAI fishery included red king crab and golden king crab.

<sup>c</sup>These stocks are not part of the Crab Rationalization program and use Guideline Harvest Levels (GHLs) instead of Total Allowable Catch (TAC). NSR has both a CDQ and open access component.

<sup>d</sup>Stock for this year was based on a calendar year instead of crossing years. If, for example, the stock is listed under the 2015/16 year then it is for the 2015 calendar year.

**Notes:**

OFLs (Overfishing Limits) and ABCs (Allowable Biological Catch) are set through the North Pacific Fisheries Management Council process. TACs and GHLs are set by the Alaska Department of Fish and Game.

The PIG, WAI 171° W to 179° W, and NSR fisheries are not part of the Crab Rationalization program.

Fishery closed - no TAC or GHL was set.

none - years the fishery was open but without a set GHL.

Some fisheries are based on a calendar year and some cross calendar years. For fisheries in the Crab Rationalization program a crab year is from July 1 to June 30.

Greyed out sections indicate fisheries that did not exist for that year.

<sup>a</sup>The Western section does not have CDQ (Community Development Quota), but instead has an ACA (Adak Community Allocation).

<sup>b</sup>Prior to the 1980/81 season the GHL for the WAI fishery included red king crab and golden king crab.

<sup>c</sup>These stocks are not part of the Crab Rationalization program and use Guideline Harvest Levels (GHLs) instead of Total Allowable Catch (TAC). NSR has both a CDQ and open access component.

<sup>d</sup>Stock for this year was based on a calendar year instead of crossing years. If, for example, the stock is listed under the 2015/16 year then it is for the 2015 calendar year.

**Notes:**

OFLs (Overfishing Limits) and ABCs (Allowable Biological Catch) are set through the North Pacific Fisheries Management Council process. TACs and GHLs are set by the Alaska Department of Fish and Game.

The PIG, WAI 171° W to 179° W, and NSR fisheries are not part of the Crab Rationalization program.

Fishery closed - no TAC or GHL was set.

none - years the fishery was open but without a set GHL.

Some fisheries are based on a calendar year and some cross calendar years. For fisheries in the Crab Rationalization program a crab year is from July 1 to June 30.

Greyed out sections indicate fisheries that did not exist for that year.

<sup>a</sup>The Western section does not have CDQ (Community Development Quota), but instead has an ACA (Adak Community Allocation).

<sup>b</sup>Prior to the 1980/81 season the GHL for the WAI fishery included red king crab and golden king crab.

<sup>c</sup>These stocks are not part of the Crab Rationalization program and use Guideline Harvest Levels (GHLs) instead of Total Allowable Catch (TAC). NSR has both a CDQ and open access component.

<sup>d</sup>Stock for this year was based on a calendar year instead of crossing years. If, for example, the stock is listed under the 2015/16 year then it is for the 2015 calendar year.

**Notes:**

OFLs (Overfishing Limits) and ABCs (Allowable Biological Catch) are set through the North Pacific Fisheries Management Council process. TACs and GHLs are set by the Alaska Department of Fish and Game.

The PIG, WAI 171° W to 179° W, and NSR fisheries are not part of the Crab Rationalization program.

Fishery closed - no TAC or GHL was set.

none - years the fishery was open but without a set GHL.

Some fisheries are based on a calendar year and some cross calendar years. For fisheries in the Crab Rationalization program a crab year is from July 1 to June 30.

Greyed out sections indicate fisheries that did not exist for that year.

<sup>b</sup>Prior to the 1980/81 season the GHL for the WAI fishery included red king crab and golden king crab.

<sup>c</sup>These stocks are not part of the Crab Rationalization program and use Guideline Harvest Levels (GHLs) instead of Total Allowable Catch (TAC). NSR has both a CDQ and open access component.

<sup>d</sup>Stock for this year was based on a calendar year instead of crossing years. If, for example, the stock is listed under the 2015/16 year then it is for the 2015 calendar year.

**Notes:**

OFLs (Overfishing Limits) and ABCs (Allowable Biological Catch) are set through the North Pacific Fisheries Management Council process. TACs and GHLs are set by the Alaska Department of Fish and Game.

The PIG, WAI 171° W to 179° W, and NSR fisheries are not part of the Crab Rationalization program.

Fishery closed - no TAC or GHL was set.

none - years the fishery was open but without a set GHL.

Some fisheries are based on a calendar year and some cross calendar years. For fisheries in the Crab Rationalization program a crab year is from July 1 to June 30.

Greyed out sections indicate fisheries that did not exist for that year.

FMP BSAI crab quotas and directed harvest (includes CDQ) in metric tons from 1960-present
