### ***PRIVACY ACT STATEMENT***

***AUTHORITY:*** The collection of this information is authorized under the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.*

***PURPOSE:*** A Salmon Federal Fisheries Permit (SFFP) is required for vessels of the United States that are used to fish for salmon in the Cook Inlet EEZ Area. These are non-transferable, 3-year permits, issued on request and without charge to vessel owners. The Magnuson-Stevens Act specifically recognizes the need for permit issuance. The requirement of a permit for marine resource users is one of the regulatory steps taken to carry out conservation and management objectives. The issuance of a permit is an essential ingredient in the management of fishery resources needed for identification of the participants and expected activity levels and for regulatory compliance.

***ROUTINE USES:*** The Department will use this information to determine permit eligibility and to identify fishery participants. All information collections by NMFS Alaska Region are protected under confidentiality provisions of section 402(b) of the Magnuson-Stevens Act as amended in 2006 (16 U.S.C. 1801, *et seq.*) and under NOAA Administrative Order 216-100, which sets forth procedures to protect confidentiality of fishery statistics. Disclosure of this information is permitted under the Privacy Act of 1974 (5 U.S.C. Section 552a), to be shared within NMFS offices, in order to coordinate monitoring and management of sustainability of fisheries and protected resources, as well as with the applicable State or Regional Marine Fisheries Commissions and International Organizations. Disclosure of this information is also subject to all of the published routine uses as identified in the [Privacy Act System of Records Notice COMMERCE/NOAA-19](#), Permits and Registrations for the United States Federally Regulated Fisheries.

***DISCLOSURE:*** Furnishing this information is mandatory; failure to provide complete and accurate information will prevent the determination of eligibility for a permit.

## INSTRUCTIONS

### Application for Salmon Federal Fisheries Permit

A **Salmon Federal Fisheries Permit (SFFP)** is required for all vessels of the United States used to fish for salmon in the Cook Inlet EEZ Area (§ 679.114). This includes catcher vessels fishing for salmon.

Salmon includes: Chinook, Coho, Chum, Sockeye, Pink.

NMFS uses eLandings, vessel monitoring system (VMS), and other data to determine location and time of catch from each haul or delivery. Data on location and time of catch are combined with information on each groundfish management program to determine what groundfish catch is deducted from the applicable allocation for each groundfish species.

**For information on openings and closures** of Federally managed groundfish fisheries contact NMFS, Alaska Region, Sustainable Fisheries Division, In-Season Management at (907) 586-7228.

Processing salmon in the Cook Inlet EEZ Area is prohibited. Processing or to process means the preparation of, or to prepare, fish or crab to render it suitable for human consumption, industrial uses, or long-term storage, including but not limited to cooking, canning, smoking, salting, drying, freezing, or rendering into meal or oil, but does not mean icing, bleeding, heading, or gutting (see 50 CFR 679.2)
