SUBJECT: Marine Mammal Authorization Program

Dear permit holder:

You are receiving this letter and enclosed 2025 Authorization Certificate for the purpose of complying with the requirements of the Marine Mammal Protection Act (MMPA).

The MMPA requires that all US commercial fisheries be listed as a Category I, II, or III fishery according to the level of incidental mortality and serious injury of marine mammals associated with each fishery. Category I fisheries are those with the highest levels of marine mammal serious injury and mortality relative to the health and stability of marine mammal populations; Category III has the lowest levels. Participants in Category I and II fisheries must be registered in the Marine Mammal Authorization Program (MMAP) to be authorized for lawful incidental, but not intentional, marine mammal takes during fishing.

The Western and Central Pacific Ocean tuna purse seine fishery is listed as a Category II fishery, and you have been automatically registered in the MMAP.

Please find enclosed your MMAP Authorization Certificate. You must carry this certificate on board your vessel. Without this certificate, it is unlawful for your vessel to incidentally (or unintentionally) take any marine mammal while fishing. This certificate is effective for the period printed on the certificate. If you lose or damage your certificate, you may print a replacement by going to: <https://www.fisheries.noaa.gov/pacific-islands/resources-fishing/pacific-islands-fishing-permits>.

As a participant in the Western and Central Pacific Ocean tuna purse seine fishery, you must:

- Maintain the enclosed MMAP Authorization Certificate, or a legible copy, on board the vessel while engaging in this fishery.
- Accept an observer aboard your vessel, if so requested by NMFS or a designated contractor providing observer services to NMFS.
- Report injuries and mortalities of marine mammals within 48 hours after the end of each fishing trip during which the injury or mortality occurred. You may submit the report in any of the following ways:
 - Mail the completed postage-paid form (available in English, Spanish, and Vietnamese) available from <https://www.fisheries.noaa.gov/national/marine-mammal-protection/marine-mammal-authorization-program>
 - Fax the completed form to +1 (301) 713-0376
 - Scan and email the completed form to nmfs.MIreport@noaa.gov

- Complete the online MMAP mortality/injury reporting form, which may be accessed at: <https://www.fisheries.noaa.gov/national/marine-mammal-protection/marine-mammal-authorization-program>

Please see the Terms and Conditions listed on the enclosed MMAP Authorization Certificate. Failure to comply with any of the terms and conditions of this Authorization Certificate or applicable provisions of the MMPA Section 118 may result in civil penalties and/or criminal sanctions and suspension or revocation of the Authorization Certificate.

For general questions about the MMAP, please contact Jamie Marchetti of my staff at (808) 725-5108 or jamie.marchetti@noaa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Sarah Malloy". The signature is fluid and cursive, with the first name "Sarah" and last name "Malloy" clearly distinguishable.

Sarah Malloy

NOAA's National Marine Fisheries Service (NMFS)

Marine Mammal Authorization Certificate

January 1 to December 31, 2025

Authorization:

Pursuant to Section 118 of the Marine Mammal Protection Act (MMPA) (16 U.S.C. 1387), the implementing regulations at 50 CFR Part 229, and subject to the terms and conditions below, NMFS issues this Authorization Certificate, which, when presented in combination with a current and valid state or federal fishing permit, authorizes the incidental, but not intentional, taking of non-endangered/threatened marine mammals while engaged in commercial fishing in Category I or II fisheries.

Terms and Conditions:

- **All incidental mortality or injury of marine mammals occurring in the course of commercial fishing operations must be reported to NMFS within 48 hours after the end of each fishing trip in which the incidental mortality or injury occurred, using the appropriate MMAP reporting form.**
- This Authorization Certificate, or a photocopy of it, must be on board the vessel during commercial fishing operations.
- Authorization Certificate holders must comply with any applicable take reduction plans and emergency regulations.
- If requested to do so by NMFS or a designated contractor providing observer services to NMFS, an Authorization Certificate holder must take aboard an observer to accompany the vessel on fishing trips.
- When necessary to deter a marine mammal from damaging fishing gear, catch, other private property, or from endangering personal safety, the vessel owner, operator, or crew members may use measures which do not result in serious injury or mortality of the animal pursuant to the deterrence provisions of the MMPA.
- A marine mammal may not be intentionally killed in the course of commercial fishing operations except where imminently necessary in self-defense or to protect the life of a person in immediate danger. Such lethal taking must be reported to NMFS within 48 hours after the end of each fishing trip in which the intentional lethal take occurred. Any marine mammal incidentally taken must be immediately returned to the sea unless directed otherwise by NMFS or a NMFS-authorized observer.
- This Authorization Certificate, or a copy, must be made available in combination with a current/valid state or federal fisheries permit upon request to any state or federal enforcement agent authorized to enforce the MMPA, any designated agent of NMFS, or any contractor providing observer services to NMFS.
- This certificate is not transferable. In the event of a change in vessel or fishing permit ownership, the Authorization Certificate is void and a new Authorization Certificate must be obtained by the new owner.
- If the registered vessel is sold or destroyed or is replaced by a new designated vessel, an authorization must be obtained for the new vessel.

- Any person who violates these Terms and Conditions, regulations under 50 CFR Part 229, or any provisions of Section 118 of the MMPA shall be subject to the penalties set forth in the MMPA.
- If there are changes in the mailing address or vessel ownership, notify the NMFS Pacific Island Regional Office, by email to pir.wcpfc@noaa.gov of the change within 15 days.
