

### **Gulf of Mexico Red Snapper Private and State Charter Recreational Landings from State Survey Programs**

The following landings are based on state survey program estimates as reported to NOAA Fisheries by each Gulf state. All landings are in pounds whole weight

Year	Texas	Louisiana	Mississippi	Alabama	West Florida
2018	254,970	736,714	131,914	986,298	2,007,049
2019	307,105	848,340	150,279	1,132,004	1,330,923
2020	229,725	777,259	142,044	1,106,679	1,512,387
2021	211,373	823,176	143,043	937,280	2,162,029
2022	158,452	801,911	129,057	423,851	1,605,799
2023	267,721	864,653	80,675	596,083	2,204,136

### **Gulf of Mexico Red Snapper Private and State Charter Recreational Landings for both the State Survey Programs and from MRIP-CHTS**

The state survey program estimates were reported to NOAA Fisheries by each Gulf of Mexico state. The MRIP-CHTS landings come from the Marine Recreational Information Program Coastal Household Telephone Survey. All landings are in pounds whole weight

Mississippi Landings		
Year	State Survey	MRIP-CHTS
2018	131,914	342,817
2019	150,279	510,529
2020	142,044	147,588
2021	143,043	437,626
2022	129,057	433,133
2023	80,675	69,930

Alabama Landings		
Year	State Survey	MRIP-CHTS
2018	986,298	1,947,713
2019	1,132,004	2,259,154
2020	1,106,679	1,847,874
2021	937,280	1,443,056
2022	423,851	1,510,325
2023	596,083	814,788

West Florida Landings		
Year	State Survey	MRIP-CHTS
2018	2,007,049	1,553,416
2019	1,330,923	1,441,119
2020	1,512,387	902,524
2021	2,162,029	1,257,100
2022	1,605,799	789,331
2023	2,204,136	844,667
