REF: Extension of Duration of LOA granted for permit# L23-035

An LOA was granted by NMFS to WesternGeco for the Engagement-7 project, which operates under permit# L23-035, and which expires on April 30th 2025. The project has been delayed by inclement weather during the winter months and, consequently, we do not anticipate completion by the end of April. WesternGeco requests that the validity of the LOA be extended to June 30th to allow completion. There have been no changes to any aspect of the project and the survey description, as supplied to NMFS, has not changed.

Please let me know if any other information or any other actions are required on my part.

Sincerely

Stephen Bernard
